

Sarfraz Sheikh

Data Analyst | SQL · Python · Power BI · Excel · AI Pipelines

+91 7999 581 257 | sarfarazsheikh810@gmail.com | Bangalore, India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven **Data Analyst** with proven experience turning raw data into business decisions. Expert in **SQL, Python, Power BI, and Advanced Excel**. Unique edge: can **build the data pipelines and dashboards I analyse** — no engineering dependency. Built a production RAG system (KnowledgeFlow AI) internally adopted at PhnyX Lab to cut analyst research time. Currently monitoring KPIs and escalation trends at Licious.

CORE SKILLS

Data Analysis	SQL (Joins, Aggregations, Subqueries) · Python (Pandas, NumPy, Matplotlib, Seaborn) · Excel (Pivot Tables, Power Query, VLOOKUP)
BI & Dashboards	Power BI (DAX, KPI cards, drill-through) · Tableau · Google Data Studio
AI & Pipelines	LangChain · RAG Pipelines · FAISS · Pinecone · Claude API · OpenAI
Development	React.js · Node.js · FastAPI · REST APIs · Git / GitHub
Databases	MySQL · SQLite · MongoDB
Soft Skills	Data storytelling · Stakeholder communication · Agile / Scrum · Fast learning

PROFESSIONAL EXPERIENCE

Operations Analyst — Customer Happiness Cell at **Licious** Sep 2025 – Present | Bengaluru, India (Remote)

- Monitored daily customer interaction data — identified recurring escalation patterns and operational gaps for team leads.
- Tracked KPIs across delivery exceptions (CNR, RNR, delays); compiled weekly trend summaries for leadership review.
- Maintained structured data logs of issue categories, resolution times & feedback feeding into operational reporting.
- Streamlined query resolution workflows through analytical thinking — improved response consistency across the team.

Software Development Intern at **PhnyX Lab** Mar 2024 – Sep 2024 | Chhindwara, India (Remote)

- Engineered **KnowledgeFlow AI** — a RAG-powered document intelligence system adopted internally, cutting manual research time.
- Built LangChain pipelines with OpenAI embeddings + Pinecone & FAISS vector DBs for sub-second semantic retrieval.
- Developed React.js analytics dashboard with document upload, semantic query interface & retrieval metrics.
- Delivered FastAPI backend with full OpenAPI documentation; collaborated in Agile/Scrum across a 6-month engagement.

Guest Relationship Associate at **PVR-INOX** Jun 2025 – Sep 2025 | Bengaluru, India

- Logged and categorised high-volume customer complaints for weekly operational reporting to management.
- Translated customer feedback into structured summaries used for operational process improvements.

DATA ANALYSIS PROJECTS

E-Commerce Sales Performance Analysis · Python · Pandas · SQL · Matplotlib · Seaborn

- Analysed 50,000-row dataset (orders, returns, customers, products) across 3 years — resolved 1,200+ nulls & duplicates.
- Wrote 20+ SQL queries to surface top categories, high-return SKUs, peak periods & customer lifetime value.
- Built 12-chart visualisation report revealing a 34% Q4 revenue spike; delivered 3 recommendations to cut returns by ~18%.

HR Employee Attrition Dashboard · Power BI · Excel · DAX

- Built interactive Power BI dashboard on IBM HR dataset (1,470 employees) identifying attrition risk by department.
- Created 8 DAX measures; key finding: overtime + low satisfaction = 3x higher attrition — visualised with KPI cards.
- Dashboard featured drill-through pages & dynamic filters by age, department, and gender for HR decision support.

IPL Cricket Season Analytics (10 Seasons · 179,000+ records) · Python · Pandas · Plotly · Jupyter

- Conducted full EDA on 756 matches; merged multiple datasets, handled inconsistent names & missing venue data.
- Built interactive Plotly dashboard with animated year-on-year team performance trends; published clean notebook to GitHub.

AI & ENGINEERING PROJECTS (PIPELINE & PRODUCT DEPTH)

KnowledgeFlow AI — Document Intelligence Platform · LangChain · FAISS · Pinecone · FastAPI · React.js

- Production RAG system for pharma & legal document libraries — adopted at PhnyX Lab, reducing analyst research time.
- End-to-end: LangChain ingestion → Pinecone/FAISS retrieval → FastAPI backend → React.js analytics dashboard.

VibeFlow — Music Streaming App · React.js · Node.js · Express.js · MongoDB

- Full-stack app with JWT auth, playlist management, real-time audio playback — deployed to production.

Devnix — Developer Productivity Platform · React.js · Node.js · GitHub API · JWT

- Project tracker + code snippet manager with GitHub API integration and role-based access control.

EDUCATION

MBA — Information Technology · Agrawal University · Expected Dec 2027 (Pursuing)

B.Com — Bachelor of Commerce · Govt. P.G. Autonomous College, Chhindwara · May 2025 | 8.0 CGPA

CERTIFICATIONS

- ▶ **Data Analysis with Python & SQL** — TuteDude | 2025
- ▶ **Advanced Excel** — Skill Course | Completed
- ▶ **Full-Stack Web Development Bootcamp** — Udemy | 61.5 hrs

KEY ACHIEVEMENTS

- **KnowledgeFlow AI** adopted at PhnyX Lab — measurably reduced manual document research time for analyst teams.
- Deployed 3+ full-stack & AI-powered products end-to-end: VibeFlow, Devnix, KnowledgeFlow AI.
- Academic Scholarship recipient & Department Leader during B.Com — recognised as all-rounder.
